

CALL FOR EXHIBITORS

44th POWER SOURCES CONFERENCE

The Riviera Hotel
Las Vegas, Nevada
June 14-17, 2010

sponsored by

U.S. Army Research, Development & Engineering Command

Army Power Division
Command and Control Directorate
Communication Electronics Research Development & Engineering Center

Directed Energy and Power Generation Division
Sensors and Electronic Devices Directorate
Army Research Laboratory

in conjunction with

U.S. Air Force, U.S. Navy, U.S. Marine Corps, Department of Energy, and NASA

The 44th Power Sources Conference is scheduled to proceed along traditional lines. The meeting will focus on energy generation and storage technology (largely, but not exclusively, electrochemical), which is of interest to the DoD, other Government agencies, and to the civilian marketplace. As usual, the orientation will be toward devices, but relevant contributions on materials, mechanisms, and power management are welcome, in addition to contributions on prototype development, manufacturing technology, device and systems engineering, and economic and environmental considerations.

Why should you exhibit?

Exhibit hours will be as follows:

- Present your new products and technology to representatives from the Army, Navy, Air Force, Department of Energy and NASA, as well as foreign representatives.

Monday, June 14	6:00 pm - 8:00 pm
Tuesday, June 15	9:00 am - 6:00 pm
Wednesday, June 16	9:00 am - 6:00 pm

- Get an update on new military and government needs and requirements in the power source arena.

Every effort is being made to assure attendees' participation in the Exhibition. A reception scheduled from 6:00 to 8:00 pm on Monday, June 14, and coffee breaks held during exhibit hours on Tuesday and Wednesday will be held in the exhibit hall.

- Learn about the latest power source technology from both government and industry spokesmen.

Exhibit space will be rented at \$2000 for each 8ft. deep by 10ft. wide booth
